THE NICHOLSON LAW.

Indiana Republicans Dispute About Its Usefulness.

Indianapolis, Ind., Oct. 19.—The meeting of the republican state central committee yesterday called to the city a large number of republican politicians and these were given an opportunity to express themselves before the committee went into executive session.

The feature of the open meeting was the denunciation of A. C. Black and Congressman-elect Hardy of the Nicholson temperance law and the reply of Mr. Nicholson to their attack. They expressed the belief that the law would injure the republican party in the coming state election and declared that the party should disavow all responsibility for its enactment. There was a strong sentiment in the open meeting in favor of re-organization in December, the sentiment being led by Chairman Gowdy.

The committee met after the meeting adjourned and passed a resolution calling a general conference of the party for Nov. 20. Notwithstanding the sentiment in favor of earlier re-organization, a resolution was adopted fixing the election of new members of the committee for the third Tuesday in January.

CELEBRATION ENDS.

Rejoicing at Milwaukee Brought to a Close Yesterday.

Milwaukee, Oct. 18.—When the parting "good night" flamed out on the lake front, in the midst of shooting stars and sprays of fire, and expired in a shower of rockets, Milwaukee's semi-centennial celebration was over.

The second day of the celebration was ashered in like the first, with the booming of cannon and the blowing of whistles. And when the day dawned, and it was found that the weather clerk had granted another fine day, the fun began afresh, and the city gave itself to a second day's long round of pleasure, business being abandoned with a reckless strange indeed for conservative Milwaukee.

Wednesday's crowds on the streets were repeated and the success of Wednesday's events was duplicated. And there were events enough to keep everybody interested. At 9 o'clock a reception at the new city hall began and lasted until 12 o'clock. At 10 o'clock a reception to the city's guests began at the Pfister, and lasted until the guests were loaded into carriages and taken for a drive around the city, which consumed the balance of the morning.

At the same hour began the most interesting event of them all, the reception at the Plankinton to the pioneers and old settlers of the city, and while those events were going on the firemen were giving their interesting exhibition on the City Hall square. In the afternoon there was the great industrial parade, and at night there were the fireworks and the illuminations. Last night's illumination was repeated, and it was a great illumination. Electric lights by the thousands, glowing with red, white and blue, covering hundreds of store fronts and hanging in arches over the streets, flooded the city with light and converted the business section into a fairyland.

Fort Wayne's Celebration Continues.

Fort Wayne, Ind., Oct. 18.—Yesterday was the day of Fort Wayne's centennial. Excursion trains on all the roads began arriving early, each bringing large numbers of people. There were more strangers in the city than ever before in its history and the streets were almost impassable. The prize military drills were held at Driving park and companies from Indiana, Ohio and Michigan were in the race. At 1:30 p. m. the grand military, civic and industrial parade started on its tour of the city. It was composed of state militia, secret societies, fire and police departments and in fact everything that could move was in the line. It was the largest parade ever witnessed in this city. To-day Gov. Matthews and staff will be here and a grand military review will take place. The celebration closes to-night with an immense pyrotechnical display.

Will Finish This Week.

Elgin, Ill., Oct. 18.—Bishop J. J. Esher of Chicago presided at the Evangelical Church conference yesterday. The report of the committee on missions was submitted to the conference and adopted. The contributions for missions for the last four years were \$543,774.43, only \$5,141.28 less than in the four years from 1887 to 1891, notwithstanding the financial depression and the loss of 40,000 members through the Dubs defection from the association. The church has a missionary debt of \$100,000 and plans were perfected to raise that amount. Conference members pledged \$10,000 yesterday. The conference will probably finish its work this week.

The total number of districts in the state is eleven, and all are largely represented. John M. Coulter, of Lake Forest university, was elected president.

Fowler Willard, a national evangelist. At 9:30 o'clock the convention will be called to order by Miss Willard.

EVIDENCE FAVORING HINSHAW.

Statements Said to Be Adduced That May Secure a New Trial.

Danville, Ind., Oct. 18.—The defense in the Hinshaw murder case introduced evidence in support of their motion for a new trial yesterday. About seventy affidavits have been returned, several of them touching statements made by the jurors, and the remainder statements made by the witnesses. One woman who made very damaging statements to the defense says she saw Mrs. Hinshaw fall after she saw Hinshaw in the street; and the story that Hinshaw sat on a sofa with his arm around Allie Ferree is disputed by seventy different people. The lawyers for the defense say the opinion here is that a new trial will be granted.

England to Consult Powers.

Washington, Oct. 18.—Even after the practical confirmation from British sources of the statement that the State Department has addressed a strong letter upon the Venezuela boundary dispute to Ambassador Bayard for delivery to the British foreign office the officials at the State Department refused to make any admission touching the subject. It is assumed here that the only purpose of delaying a response, which the terms of the latter indicated would be gratefully received if sent promptly, is to afford to the British government an opportunity to consult some of the other great European powers upon the subject.

Illinois Baptists Talk of Missions.

Quincy, Ill., Oct. 18.—Yesterday's session of the Baptist General Association was devoted to reports and discussion on home and foreign missions. Most of the afternoon was given to the discussion of Sunday school work. The election of officers resulted as follows: Moderator, H. R. Clissold, Chicago; clerk, Rev. C. E. Taylor, Ph. D., Rock Island; assistant clerk, Miss Georgia T. First, Upper Alton; treasurer, H. M. Carr, Alton; historical secretary, Rev. J. Bulkley, D. D., Upper Alton; corresponding secretary and general superintendent of missions, Rev. H. C. First, Upper Alton. Robbed Danuth State Bank.

Duluth, Minn., Oct. 18.—A sensation was sprung here yesterday when it was announced by the officers of the State bank that Charles H. Stuckey, the cashier, had disappeared with at least \$15,000 of the bank's money, and possibly more. The bank was robbed some time during the night and Stuckey left the city on the midnight train for the east. The discovery that Stuckey had fled was made when the bank officials came to work in the morning. The bank will not suffer by the defalcation, as it is in excellent condition and Stuckey's bondsmen are rich and will make good the shortage.

MILWAUKEE MEN DIE
WHILE IN A WELLFOUL AIR AND GAS DID FATAL
WORK TODAY.

Three Diggers Found Lifeless at the Bottom of the Shaft Forty-five Feet Under Ground this Morning—Bad Fire Raged at Viroqua This Morning.

Milwaukee, Oct. 18. [Special].—Foul air and gas killed three men on Seventh avenue this morning. They were:

Ave, Fred, Jr., 559 Maple street.

Schmidt, Charles.

Ave, Fred, Sr., 559 Maple street.

The men were digging a well. Ave went down first and as he made no sound after reaching a depth of forty five feet Schmidt went down to see what was wrong and as he sent back no message the elder Ave went down too. Later other men investigated and found all three dead at the bottom of the shaft. Foul air suffocated them.

ARREST CORBETT.

Test Case to Be Made of the Arkansas Law.

Hot Springs, Ark., Oct. 18.—A warrant was issued yesterday afternoon for Corbett's arrest, charging him with conspiring to create a breach of the peace by engaging in a contest with Fitzsimmons. It was placed in the sheriff's hands for service, but that officer, upon learning that the champion had just completed his day's training, decided not to disturb him until this morning, when he will be brought to the city and arraigned before Justice Kirk on the above charge. His bond will be fixed at \$10,000, which he will refuse to give. He will then be taken before Chancellor Leatherman upon a writ of habeas corpus, and if in the opinion of the chancellor it is found that glove contests can be conducted within the provisions of the law Corbett will be dismissed and active preparations for the big contest will begin.

Little Rock, Ark., Oct. 18.—Brigadier General George P. Taylor of the Arkansas state guard returned from Hot Springs last evening and was greeted with Governor Clarke for an hour or more. After the conference General Taylor said: "The fight will not occur at Hot Springs nor in Arkansas. There is no doubt on that score." General Taylor said that he had been requested by Governor Clarke to remain in this city for the present. He had found the best people of Hot Springs in favor of the contest.

THREATEN A BOYCOTT.

Illinois Grain Dealers Declare War on Chicago Board of Trade.

Decatur, Ill., Oct. 18.—About 200 members of the Illinois Grain Dealers' association met in Decatur yesterday to protest against the action of receivers of grain in Chicago who have defeated the Board of Trade rule requiring public disinterested weights on grain received there. At the meeting these resolutions were adopted: "Resolved, That the members of the Illinois Grain Dealers' association will not consign or sell to any receiver or buyer of grain who knowingly violates the rule of the Board of Trade or the agreement of the Receivers' and Shippers' association in regard to weighing."

The association also passed resolutions asking the railroad and warehouse commissioners to have the chief inspector in Chicago seal cars immediately after inspection there. It is claimed that many shortages are due to stealings in Chicago yards after inspection.

COLEMAN ARRESTED.

Defaulting Official of Fort Scott Bank in Charge of Police.

Fort Scott, Kan., Oct. 18.—Vice President J. J. Stewart and stockholders T. J. Strode and J. Meade of the collapsed State Bank late last evening filed a complaint against the defaulting cashier, J. R. Coleman, charging him with embezzlement, and he was arrested in his bed at his home. His relatives were not prepared to give bond and he would have gone to jail had not the complaining witnesses consented to allow him remain at home under the surveillance of a deputy sheriff. Mrs. Coleman has turned over her diamonds and Mr. Coleman's life insurance policies for \$25,000. The faithless cashier, the doctor says, will probably never recover from his present condition. As yet there is no reasonable hope that the amount of his defalcation will be less than \$50,000, two-thirds of the amount of the paid-up capital of the bank.

SAY GENERAL CAMPOS IS INSANE
Startling Rumor Concerning the Spanish
Commander in Cuba.

Tampa, Fla., Oct. 18.—Reports were circulated Wednesday that the Spanish consul had received an official cable that General Campos was no longer commanding the military affairs in Cuba. The inference was that Campos was either deposed, killed or captured by insurgents. The Spanish consul emphatically denied the report. Passen-

gers arriving from Cuba last night report General Campos in Santiago completely insane. This connects strangely with Wednesday's rumor, of which the passengers had no intimation. Should this be true, General Polaviejo will probably be sent to Cuba and a vigorous policy pursued. Cubans know him as a relentless foe.

TROOPS DEFEAT REBELS.

Small Engagement Results Disastrously to Cuban Insurgents.

Havana, Oct. 18.—A column of troops commanded by Colonel Zamora has had a fight with a band of insurgents, led by Romeu, at Costa Blanca. The insurgents retreated, leaving five killed and twelve wounded, among the wounded being Chief Carreras. The troops lost one wounded. The insurgents have attacked Occintania plantation, at Macagua, in the province of Matanzas, which is the property of Americans. The insurgents carried away all the weapons found on the place.

Brigadier General Oliver, with 200 infantry, met the insurgents with a force of 300 infantry and fifty cavalry at Resbalosa, in the Province of Santa Clara. The insurgents stood the firing of the troops for thirty minutes, retreating to the woods after they had charged the Spanish with cavalry and infantry, the latter with fixed bayonets. The insurgents left upon the field five killed and ten horses, and carried with them in their retreat many killed and wounded. Professor Agüero, of the Havana University, has been removed from his position by the government for aiding the rebellion by collecting funds in Chile.

More Troops from Spain.

Madrid, Oct. 18.—It is officially announced that 12,000 additional troops will start for Cuba Tuesday next, Oct. 22.

ILLINOIS IS INDEPENDENT.

Presbyterian Churches Will Contribute Directly to State Work.

Peoria, Ill., Oct. 18.—At the meeting of the Presbyterian synod of Illinois yesterday the greatest work of the day was the adopting the report of the synodical sustentation committee, which, in fact, cuts the synod of Illinois loose from the general board of home missions of the Presbyterian church. Hereafter the Illinois churches will contribute directly to state work, and will not send money to New York to the general board, and then expect it to be returned to them to be used in home mission work.

Reports of the committees on systematic beneficence, state of religion, finance, general assembly, church erection, temperance, Sunday-schools, women's synodical societies, Freedmen's Aid society and young people's societies were read and approved. Danville was selected as the place for the next annual meeting, there being no opposition. W. P. Kane, of Bloomington, was elected chairman of the Home Mission and Church Sustentation society, and D. S. Johnson, of Springfield, its treasurer.

ELECT BISHOPS.

Episcopal Convention Adds Two Signatories to Its Clergy.

Minneapolis, Oct. 18.—The Episcopal house of bishops yesterday began balloting for bishops to preside over the new missionary jurisdictions. Rev. J. M. Francis was elected on the first ballot bishop of Kioto, Japan. Rev. Peter J. Rowe, of Sault Ste. Marie, Mich., was named as bishop of Alaska on the first ballot. It develops that the sudden change of front on the part of the house of bishops in voting to name a missionary bishop of Alaska was due to the personal guaranty of the new bishop's salary for three years by Bishop Potter of New York. This guaranty is understood to have been given by J. Pierpont Morgan.

The house of deputies rescinded the provision forbidding the binding of the prayer book and hymnal together.

They also reconsidered the action of the morning granting the petition for setting off a missionary district in northern Minnesota and then took up the Christian union resolution and debated it to a finish. The votes showed the broad churchmen in the minority, but they had a very good sized minority. The vote was as follows: Clerical deputations, yeas, 19; nays, 23; divided, 11. Lay deputations, yeas, 15; nays, 22; divided, 3.

BANKERS ADJOURN.

Last Day of Their Meeting at Atlanta, Georgia.

Atlanta, Ga., Oct. 18.—Edward Atkinson, of Boston, addressed the American Bankers' association yesterday giving his ideas of the currency situation and the proper way to bring about reform. Mr. Atkinson said that the suggestion of a bankers' committee to co-operate with the executive department of the government should be supplemented with a plan for the withdrawal of the excess of legal tender notes now in forced circulation. There is no question, Mr. Atkinson declared, that it is the duty of the secretary of the treasury to cancel the treasury notes of 1890, which are paid in silver dollars.

The convention adopted a resolution that a committee of seven or eleven of each section of the country be appointed by the bankers' association to confer with the secretary of treasury with reference to the co-operation of the banks in maintaining the national credit. William P. St. John of New York addressed the convention in favor of the free coinage of silver. He was listened to respectfully, but without enthusiasm, the delegates being almost a unit in opposing that policy.

Eugene H. Pullen was nominated for president and elected by acclamation, and Robert J. Lowery of Atlanta was made vice president. The convention then adjourned sine die.

Spiritualists Make Changes.

Washington, Oct. 18.—The adoption of important amendments to the constitution of the National Association of Spiritualists formed the principal business of the sessions yesterday of the convention and the action taken hereafter will limit each State to but one chartered association having exclusive State jurisdiction. It will be composed of delegates from subordinate societies. The contest over the per capita tax was settled by providing for the collection of \$5 for issuing a charter to each association of lay members, with 25 cents per capita annual dues and \$10 for each charter issued to associations composed of delegates from subordinate associations, and 25 cents per delegate as annual dues. A committee report was submitted favoring representation of Spiritualists at the coming congress of liberal religions.

Carlisle to Speak at Chicago.

Washington, Oct. 18.—Secretary Carlisle has been obliged to decline an invitation to address the labor organizations of Chicago Dec. 10, on the subject of sound money. He will, however, find an opportunity to deliver an address before the Chicago organization on the sound money question at an early date.

DRAIN THE COUNTY OF HEALTHY HOGS

CHOLERA SCARE MEANS MUCH TO THE FARMERS.

Fully Eight Thousand Porkers Have Been Shipped in the Last Three Weeks to be Sold at Whatever They Will Bring—One Firm Handle 4000.

Few people have an idea of what hog cholera means to the farmers. Some idea can be gained by the fact that in the neighborhood of 8,000 hogs have been shipped by the local dealers, the rush being the result of the cholera scare. The railroads have of course been greatly benefitted and the Chicago speculator has come in for his share but the farmer loses. Rock county is being drained of her hogs. There is little doubt but what pork will take a turn for the better, and a rise in the price may be looked for at any moment.

"Is it surprising" remarked George Charlton to a Gazette reporter, "the number of hogs that Mr. Dawson and myself alone have shipped to Chicago markets within the past three weeks, to say nothing of the other shippers. In my estimation four thousand is a small guess, for the number we alone have shipped."

Among the other large buyers, L. C. O'Brien and Charles Stoller both, of this city, have been buying for some time and shipping in large numbers. Emory Danbar, another Janesville buyer, has been purchasing an unusually large number of late, mostly in the vicinity of Footville, and about all his shipping is done from that town.

The old man who looks out at the world with clear and healthy eyes cannot help feeling great gratification at the thought that his children have inherited from him no weakness nor tendency to disease. The healthy old man is the man who has throughout his life kept his digestion good and his blood pure. Not one in a thousand does do it. Germs go through the healthy body without effect. Let them once find lodgment or let them find a weak spot, they will develop by the million and the blood will be full of them. Instead of giving strength to the tissues, it will force upon them unwholesome and untritious matter, and the man will lose flesh and the more susceptible he is to disease. Dr. Pierce's Golden Medical Discovery is the only medicine that absolutely and infallibly cures all blood diseases, and almost all diseases are blood diseases. It isn't a medicine for some one particular so-called disease. It is a medicine for the whole body. It forces out all the germs of disease, and replaces impurities with rich, red blood.

THE BEST OF ALL

IN ALL THINGS AT ALL TIMES.

There are many GOOD life insurance companies, but among them all there must be one BEST. THE BEST is THE EQUITABLE. If you wish to know why, send for: 1, the report of the Superintendent of Insurance for the State of New York on the examination of The Equitable; 2, for actual results of maturing policies; 3, for statement of death claims paid in 1894. Then you will know the three great reasons of The Equitable's supremacy: 1st its financial stability; 2d, its great profits and advantages to living policy-holders; 3d, the promptness of its payments and liberality of its settlements.

THIS DAY IN HISTORY

1686—Sir Philip Sidney, English hero, courtier and poet, was killed at Zutphen, Holland.
 1705—Ninon de l'Enclos, famous wit and beauty, "the Aspasia of France," died at the age of 90, retaining her beauty almost to the last.
 1777—Surrender of General Burgoyne's army to General Horatio Gates at Saratoga, N. Y., a decisive event in the war of the Revolution.
 1849—Frederic Chopin, musical composer, died in Paris.
 1850—John Brown astonished the world by seizing Harper's Ferry arsenal. Brown's party included 5 negroes, 3 of them fugitive slaves, and 17 whites besides himself. Their object was to free slaves on Virginia soil by force. The raiders crossed from the Maryland side of the Potomac over the bridge and seized the United States arsenal and armory. This was done on Sunday evening. The next step was to cut telegraph wires, arouse the negroes, imprison the citizens and make ready for defense. When attacked, the party took refuge in the engine house, which was besieged by citizens and militia on Monday. Next day, Tuesday, a force of United States marines, led by Colonel Robert E. Lee and Lieutenant J. E. B. Stuart, arrived from Washington and battered down the doors of the citadel, capturing the raiders. Brown was wounded, two of his sons and 8 others killed. Three citizens and several negroes were killed by Brown's party.
 1866—Lucy Stone Blackwell, one of the original and most noted woman suffrage advocates, died at Dorchester, Mass.; born Massachusetts 1818. MacMahon, due de Magenta, marshal of France and ex-president of the republic, died in Paris; born 1808.

WHO STOOD BEHIND HIM?

It seems a shame that Bat Shea should die alone. Not but that he deserves death. He deserves it richly. A ward rough, trained in the vicious school of politics to commit frauds on the ballot box, he invaded a polling place in Troy, N. Y., on March 6, 1894 and during an altercation shot and killed a respectable citizen who was heading off repeaters. His crime was brutal, unprovoked and atrocious.

A determined legal fight was made to save the murderer but the entire higher court has concurred in affirming the judgment of the chief justice saying:

"Such men have no politics. As the soldiers of fortune of a bygone age fought, so these repeaters vote for the candidate who pays them. They are neither republicans nor democrats but enemies of law and order at all times."

No the pity is not that Bat Shea should die but that he should die alone. It should not be that those who hire such criminals escape all punishment while their tool, usually a young man degraded by evil associates is sent to the electrical chair or the gallows.

FARMER AND GOOD ROADS.

"No more taxes for road-building," says the farmers.

On the heels of that he submits to the most burdensome of all taxes. The wear and tear of his vehicles, the loss of time, because of poor roads, the losses by reason of the small amount of produce he can haul, these constitute a tax ten times greater than what he would be obliged to bear to get improved highways.

In one or two Rock County townships this lesson has been learned. Farms in these townships are held at twenty-five per cent. higher prices in consequence. When will other towns heed the lesson?

It isn't surprising that the democratic party's accession to power should have been followed by an immense increase in the importation of foreign shoddy: it is a shoddy party. How great this increase has been the figures will show. For the year ending Aug. 31, 1894, when the McKinley tariff law was still in force, we imported but 210,404 pounds of shoddy, while for the year ending Aug. 31, 1895; the first under the democratic tariff, we imported 17,666,562 pounds of shoddy, which meant the use of just that much less wool.

While Mr. Cleveland is hunting for some excuse for a display of jingoism he should not overlook Spain and its wild talk of invading Florida after the Cuban revolt is squelched.

Congressman Bowers of California was right when he said the renomination of Cleveland would effectually settle the third term question, by his overwhelming defeat.

The last figures in Jay Gould's fortune show a total of \$83,000,000, which is considerably more than he would have made had he stuck to publishing county histories.

The London Times, which hates everything American as his satani majesty does holy water, commend Secretary Cassin's recent speech.

utterances. Few Americans do however.

It is surprising that government clerks at Washington should object to being made to chip in their cash to help along such a hopeless case as that of Campbell, of Ohio.

Something must be up when Don Dickenson refuses to talk, as he did in Washington. Nothing will be surprising after that.

It isn't the greenbacks, but the lack of greenbacks, in the shape of revenue that lies at the bottom of the administration's troubles.

The American people respectfully decline to have their sympathies controlled by Attorney General Harmon.

Oh no! Boss Gorman isn't a bit frightened; he is stamping around begging votes just for his health.

Mr. Peffer has shoved up the date when the populists are to elect the president, from 1896 to 1900.

Fighting the tiger is once more the serious business of the citizens of New York.

A REMARKABLE CURE.

A CASE OF PILES OF EIGHTEEN YEARS STANDING.

Cured by the Pyramid Pile Cure.

There are plenty of pile cures which give relief and sometimes cure a mild case of piles, but there is only one which can be depended upon with certainty to cure obstinate long standing cases, and that is the Pyramid Pile Cure.

Endorsements and testimonials are received daily from men and women whose integrity and reliability are above question and in this connection a letter received from the Rev. Jas. H. Westbrook, of Bowne, Mich., may be of interest to piles sufferers who have sought in vain for a cure. He says:

"I have used the Pyramid Pile Cure and I know that it is all that is claimed for it. I had been troubled with piles more or less for about eighteen years and I had tried other remedies, but the piles grew worse until about ten months ago I used the Pyramid Pile Cure. It gave almost instant relief and I have been free from piles ever since. Rev. Jas. H. Westbrook.

The remedy seems to act equally well in every form of piles, blind, bleeding, protruding or itching. It stops all pain almost immediately, allays irritation and removes constipation, and anyone who has suffered the annoyance and pain of a rectal trouble will appreciate the excellent results which invariably follow the first application of the Pyramid.

The Pyramid Pile Cure is prepared by the Pyramid Drug Co. of Albion, Mich., and for sale by druggists everywhere. Two sizes, 50 Cents and \$1. Sold by all druggists.

A FIGHT ON A FARM MADE BLOOD FLOW

LIVELY FRACAS SOUTH EAST
OF THE CITY.

J. B. Monroe Says a Neighbor and his Hired Man Beat Him and his Son—Alleged Beloit Burglars in Jail Here—The doings in the Municipal Court.

John B. Monroe and his son A. E. Monroe who reside on a farm fourteen miles southeast of this city were in town today seeking to "get even" with a neighbor and his hired man who, they claim assaulted them last night.

Mr. Monroe told a Gazette man that he and his son were killing a pig at their farm when both the other men made their appearance. The neighbor, Monroe claims, struck him in the face with a stone, knocking him insensible, while the hired man attacked the boy cutting and bruising him about the face, after which he went to the house and with a fence board made for Mrs. Monroe but was stopped by his employer.

By this time Monroe had regained consciousness and was making his way to the house to get his shot gun, when the two men left. Monroe also said that they fired two shots with a revolver as they left. A messenger was at once sent for Dr. Campbell of Allen Grove, and Dr. Jones of Clinton, who found both Monroe and his son to be painfully hurt. The old gentleman had his nose broken in several different places. No warrant had been issued for the two men up to 4:30 o'clock.

Alleged Beloit Burglars in Jail.
Hugh Tulley and William Lyle stepped from the Beloit train this morning with their hands shackled together, in charge of Marshal George Appleby of the Line City. Turkey Griffey met them at the train, and fifteen minutes later they were safely landed in jail.

Tulley and Lyle were caught in the act of burglarizing Burton's saloon in Beloit last evening, they being busy dividing a case of beer when George Appleby surprised them.

Tulley is a friend of "Bolivar" Ryan, and this is said to be his second offense.

Mike McKie was brought up from Beloit today, and will spend five days in jail for being drunk.

A jury was drawn in the municipal court this morning, to try Edward King on the charge of having burglarized a beer warehouse at Beloit. The venire was made returnable at 9 o'clock tomorrow morning, and an adjournment was taken until that time.

Henry Schuman was charged with being drunk and disorderly in the court house park and on his plea of guilty was sent to jail for five days.

Clara Schuman, the divorced wife of Henry Schuman, was also a defendant in the court she having been arrested as a vagrant. She pleaded not guilty to the charge, and her trial was set for October 31 at 9 a. m.

FARM HOUSE BURNS WITH ITS CONTENTS

HOMER PAUL'S RESIDENCE
DESTROYED THIS MORNING.

Was Occupied By John Brandt who Loses all His Household Goods Etc.—Loss is About \$1,500 on the Building with Insurance in the La Prairie Company.

Homer Paul's farm house in the town of La Prairie, burned with all its contents at 9:30 o'clock this morning.

Mr. Paul loses the building valued at about \$1,500, while the tenant, John Brandt, lost his household goods etc.

Mr. Paul, who is now a resident of the city of Janesville, owns the farm, which is situated four miles southeast of town on the Shopiere road, but has not worked it for some time past. John Brandt was occupying the house. The residence caught fire in some unknown manner this morning and with the stiff breeze to give headway to the flames, the edifice was soon in ruins. So rapid was the progress of the fire that little or none of the contents could be saved and the loss will fall quite heavily on Mr. Brandt. Mr. Paul was not in town this afternoon, he having gone to the farm, but it was said that the home was valued at about \$1,500 and insured to some unknown extent in the La Prairie Mutual Company. The extent of Brandt's loss is unknown.

H. DRAFAHL'S DEATH CAUSED BY A FALL

CORONER'S JURY SO DECIDED THIS NOON.

Evidence Pointed to the Fact that the Dead Man Had tried to Climb to the Hay Loft to Sleep and Tumbled to the Floor Below With Fatal Results.

Henry Drafahl's death was accidental.

So the coroner's jury decided this noon.

Drafahl was the man found on the floor of the barn at Martin Anderson's farm and who died without recovering consciousness. The inquest was adjourned on Tuesday until this morning and hopes of finding further testimony. The search was successful for this morning it was developed that Drafahl lay in a position that indicated that he had tried to climb into the hay loft on a stationary ladder that ran up the side of the building. The task was none to easy for a sober man and Drafahl being drunk, it is thought, fell when he reached the first floor, fifteen feet above the ground, and tumbled to the floor. The injuries were all on his left side and are such as would be received in such a fall, so the jury rendered a verdict that Drafahl "came to his death by injuries received by a fall on October 12."

The Present Generation
Lives at telegraphic speed—eats too fast, retires too late, does not rise betimes, smokes and (alas that we should have to say it!) chews too much tobacco. The consequences are dyspepsia, a general absence of that robust and manly vigor which characterized our ancestors, and a manifest proneness to early decay. Regular hours, a due allowance of time for meals, the disuse of excessive smoking, and altogether of chewing tobacco, in connection with a course of Hostetter's Stomach Bitters, will in nine cases out of ten efface the consequences of the abuses of the laws of health indicated above. A want of stamina, dyspepsia, nervousness and biliousness are among these consequences, and this is bodily ill to the removal of which the Bitters is specially adapted. Nor is the Bitters less fitted to over and prevent fever and ague, kidney and bladder troubles and rheumatic ailments. It is also a fine appetizer and promoter of easy digestion.

She Did Not Purchase.

Woman—Have you any stove lifters? Hardware Clerk (from Boston)—We have stove lifters, madame. I presume that is what you mean.

Woman (defiantly)—I mean stove lifters.

Clerk (patronizingly)—A stove lifter would be something to lift up a stove. A jackscrew, for instance.

Woman (angrily)—Have you any jackscrews?

Clerk (surprised)—Yes, madame, I believe so, in the basement.

Woman (meditatively)—Are they silver plated?

Clerk (dumfounded)—No, madame.

Woman (triumphantly)—Then I don't want any. I wouldn't be seen putting up a stove with a jackscrew that wasn't silver plated. I'll go deal at some store where they have a better class of custom and keep aristocratic goods. Good morning. —N. Y. Weekly.

Against All Precedent.

"It pains me to report," said the chairman of the investigating committee, "that we have been grievously betrayed, grossly deceived."

"How?" asked several members in unison.

"I have just learned," explained the chairman, regretfully, "that there are some members of this committee who really wish to investigate." —Chicago Evening Post.

He Knew Too Well.

Actress (to editor)—See here! In this article you say that I am about to start out on a "starring tour," when I distinctly told your reporter that it was to be a "starring tour."

MERCURIAL POISON

Is the result of the usual treatment of blood disorders. The system is filled with Mercury and Potash remedies—more to be dreaded than disease—and in a short while is in a far worse condition than before. The common result is

RHEUMATISM

for which S.S.S. is the most reliable cure. A few bottles will afford relief where all else has failed. I suffered from a severe attack of Mercurial Rheumatism, my arms and legs being swollen to twice their natural size, causing the most excruciating pains. I spent hundreds of dollars without relief, but after taking a few bottles of S.S.S. I improved rapidly and am now a well man, completely cured. I can heartily recommend it to any one suffering from this painful disease. W. F. DALEY, Brooklyn Elevated R. R.
